This was a time Bobby Cochran could be on the phone, but I know Amelia will be on a compressed day. Let's try to find a good time for everyone, with this invitation serving to establishing the purpose.

In late May the Johnson Foundation sponsored a workshop "Investing in Mother Nature - Transforming Markets and Ecosystems Through Water Quality Trading" led by WRI and Willamette Partnership. This July US Water Alliance will host a conference, "National Roundtable on Water Quality Trading" in Cincinnati. Ellen and I plan to attend, and Ellen will speak.

Ex. Director Bobby Cochran of Willamette Partnership will update us on the May conference, how that links to the US Alliance conference, and the larger goal of establishing best practices for water quality trading.

Please feel free to join. I think Bobby is open to another time if we need to.
